

New tool upgrades handle grips

August 7, 2017 - By **LM Staff**

Re-Grip, a division of Chicago Aerosol, debuted its flagship self-titled product, Re-Grip.

The multipurpose tool places or replaces worn-out handle grips on a variety of tools, including levers; handles; lawn, garden and home improvement tools; construction equipment; sporting goods; cookware and more.

Made from recycled materials, Re-Grip also is waterproof and UV resistant. Plus its ergonomic design is meant to reduce muscle fatigue and prevent blisters, according to the manufacturer.

Available in three sizes, Re-Grip can be purchased at Woodcraft hardware stores nationwide, select Lowe's and Home Depot and online on Re-Grip.com, Amazon, Home Depot and Walmart.
